TO: Burnett County Government Center Employees

FROM: Nathan Ehalt – County Administrator *N.A.E.*

DATE: November 8th, 2016

SUBJECT: Closing of Government Center Due to Inclement Weather

The following guidelines shall apply to inclement weather situations:

1. Each employee accepts the responsibility for reporting to work at his/her regularly scheduled time regardless of prevailing weather conditions.
2. If the employee will be late for work or absent, he/she shall immediately call his/her supervisor.
3. Employees not reporting to work are required to use accrued leave; compensatory or PTO.
4. When weather conditions reach such severity, in the opinion of the County Board Chair or designee, to warrant closing of various County Offices, the County Clerk and County Administrator will relay the decision to department heads. If offices are officially closed for a full day, employees who were scheduled to work will receive their normal full or scheduled day's pay. If offices are closed for a part day, only those employees who worked the opened part of the day will be paid for the normal full day. Employees working in operations where they cannot be released early due to the nature of the service provided will be required to complete the normal workday.
5. In all circumstances of inclement weather, the decision of the County Board Chair or designee shall be controlling.
